Engineering Excellence for Sustainable Development

About us:

Hask Engineering Services (HES) is an Afghan engineering company established in 2007, delivering professional engineering, infrastructure, and capacity development services across Afghanistan. The company operates through offices in Kabul, Jalalabad, Kandahar, Herat and Mazar-e-Sharif.

Who we are?

HES provides integrated engineering solutions using modern technologies, international standards, and highly experienced professionals. The company specializes in infrastructure, transportation, buildings, hydropower, railways, irrigation systems, and geotechnical investigations.

Core Services

Survey & GIS Services
Engineering Design
Engineering & Feasibility Studies
Construction & Construction Management
Construction Material Testing Laboratory (CMT Lab)
Professional Trainings & Capacity Building

COMPANY OVERVIEW & CAPABILITIES

Mission

Delivering high-quality engineering, construction, and technical services through innovation, integrity, and professional excellence.

Vission

To become a leading and trusted engineering company in Afghanistan, delivering sustainable infrastructure solutions through innovation, quality, technical excellence, and professional capacity building.

Our Core Expertise

Survey & GIS

- Topographic Survey
- Route Survey
- GIS Mapping
- Drone Survey
- Infrastructure Survey

Design Services

- Roads & Highways
- Railways
- Bridges
- Buildings & Structures
- Irrigation & Water Supply
- Hydropower Projects

Engineering Studies

- Feasibility Studies
- Geotechnical Investigations
- Slope Stability Analysis
- Hydrology Studies & Hydraulic Analysis
- Environmental & Social Impact Assessment
- Market Demand Analysis
- Economic Studies
- Well Analysis

Construction & Management

- Roads & Bridges
- Railways
- Buildings & Industrial Facilities
- Construction Supervision
- Quality Assurance & Quality Control (QA/QC)
- Monitoring & Evaluations

CMT Laboratory

- Soil Testing
- Concrete Testing
- Asphalt Testing
- Aggregate Testing
- Water Testing
- Steel & Material Inspection

Trainings

Covers All Aspect of Technical Capacity Development and Management

Trusted Engineering Partner for Sustainable Infrastructure

EXPERIENCE & ACHIEVEMENTS

Why choose Hask?

Years of Experience
Delivering engineering and construction services since 2007.

Nationwide Operations
Projects successfully implemented across multiple provinces of Afghanistan.

International Standards
HES follows ASTM, AASHTO, ACI, GOST, AREMA, BS, IBC, SQA Afghanistan and international engineering standards.

Professional Team
Experienced & professional engineers, surveyors, laboratory specialists, and project managers.

Projects Completed
HES completed more than 500 engineering and construction projects over the country.

Completed & Ongoing Projects

Railway Projects

- ◆ Feasibility Study, Detailed Survey & Design of Kandahar- Kabul 510Km Railway
- ◆ Detailed Survey & Design of Aandkhoy- Sheberghan 55Km Railway
- ◆ Detailed Survey & Design of Shindand-Farah 120km Railway
- ◆ Feasibility Study, Detailed Survey & Design of Farah-Ghorghori- Zaranj 211Km Railway

Road/ Building Infrastructure

- ◆ Survey & Design of Chaparhar-Khogiani 12Km Asphalt Road
- ◆ Feasibility Study, Survey & Design of Pachir Agam-Haska Mena 33km Road including 3 Bridges
- ◆ Feasibility Study & Survey of Sherzad-Azra 63Km Road
- ◆ Survey Work/ Topo of Ministry of Interior (MOI) Compound Project
- ◆ Design of WRC Building in Jalalabad

Construction Projects

- ◆ Construction of Wama Continental & Spinghar Food Zone in Jalalabad
- ◆ CNPA HQ Refurbishment Projects in Jalalabad & Lashkar Gah
- ◆ Construction of Pachir Agam-Haska Mena 33km Road including 3 Bridges

Engineering Studies

- ◆ Geotechnical Investigations for 500+ Roads, Railways, Bridges & Buildings
- ◆ Hydrology & Environmental Assessments for 100+ Construction Projects
- ◆ Foundation Analysis & Soil Studies for 20+ Electrical Transmission Towers & Stations
- ◆ Other Engineering Studies & Report for 100+ Projects

Testing & Inspection

- ◆ HES laboratories have supported more than 500 infrastructure projects across Afghanistan.

Registered & Affiliated With

- ◆ Ministry of Industry & Commerce
- ◆ Ministry of Public Works (MPW)
- ◆ Ministry of Rural Rehabilitation & Development (MRRD)
- ◆ Afghanistan Railway Authority
- ◆ Ministry of Water & Energy
- ◆ World Bank & Asian Development Bank
- ◆ UN Agencies
- ◆ Academic Institutions & International Organizations

Commitment & Resources

HES is committed to:

- ◆ Transparency & Accountability
- ◆ Quality Assurance
- ◆ Timely Project Delivery
- ◆ Community Development
- ◆ Sustainable Infrastructure
- ◆ Professional Capacity Building

Quality & Safety Policy

- ◆ HES is committed to providing safe, reliable, and high-quality engineering solutions through international standards, professional integrity, and continuous improvement.

HES welcomes collaboration with

- ◆ Donor Agencies
- ◆ Government Institutions
- ◆ Infrastructure Investors
- ◆ International Contractors
- ◆ NGOs & INGOs

Our Commitment & Resources

Machinery & Equipment

- ◆ GPS & Drone Survey Systems
- ◆ Total Stations & Level Machines
- ◆ Plotting Machines
- ◆ Drilling Rigs
- ◆ Concrete & Asphalt Plants
- ◆ Excavators & Rollers
- ◆ Fully Equipped CMT Laboratory

A multidisciplinary team of 100+ experts, includes:

- ◆ Infrastructure Engineers
- ◆ Design & Architecture Experts
- ◆ Geotechnical Engineers
- ◆ Environmental Specialists
- ◆ Survey & GIS Engineers
- ◆ Construction Managers
- ◆ QA/QC Experts
- ◆ Economists
